## NEW HAMPSHIRE DEPARTMENT OF REVENUE ADMINISTRATION

## APPORTIONMENT OF FOREIGN DIVIDENDS

## SCHEDULE II

Instructions

Schedule II is used to compute the modified apportionment percentage needed to determine the amount of foreign dividends, as defined by RSA 77-A:1, XVII, which are to be included in the New Hampshire Taxable Business Profits for the water's edge combined group. Prior to completing Schedule II, you must first complete Form DP-80 for the combined group and Schedule III.

## NAME \& IDENTIFICATION NUMBER

At the top of the return enter the beginning and ending dates of the taxable period if different from the calendar year. PRINT the taxpayer's name, federal employer identification number, social security number, or department identification number in the spaces provided. Social security numbers are required pursuant to the authority granted by 42 U.S.C.S., Section 405 . Wherever social security numbers or federal employer identification numbers are required, taxpayers who have been issued a DIN, shall use their DIN only, and not their SSN or FEIN.

## STEP 1

Complete the Form DP-80 and enter the amount of Everywhere and New Hampshire sales, payroll, and property on Lines 1(a), 2(a), and 3(a) respectively on the NH-1120-WE, Schedule II.

## STEP 2

Complete Schedule III. The Foreign Dividend Factor Increments calculated on Schedule III for sales, payroll, and property must be carried to Schedule II as follows:

1. Enter the total of Schedule III, column L on Line 1(b).
2. Enter the total of Schedule III, column M on Line 2(b).
3. Enter the total of Schedule III, column N on Line 3(b).

Note: The New Hampshire amount for Foreign Dividend Factor Increments will always be zero.

## STEP 3

Total Everywhere and New Hampshire sales Line 1(c), payroll Line (2c), and property Line 3(c) to obtain denominators and numerators for each. Complete the following calculations, as done for Form DP-80, expressed in decimal form and computed to 6 places.

1. Divide the total New Hampshire sales by the adjusted Everywhere sales. Multiply Line 1(d) by 2 to arrive at the adjusted sales factor and enter this amount on Line 1(e).
2. Divide the total New Hampshire payroll by the adjusted Everywhere payroll to arrive at the adjusted payroll factor and enter this amount on Line 2(d).
3. Divide the total New Hampshire property by the adjusted Everywhere property to arrive at the adjusted property factor and enter this amount on Line 3(d).

## STEP 4

Add Lines 1(e), 2(d), and 3(d) and enter the sum on Line 4.

## STEP 5

Divide Line 4 by 4.
If there are less than 3 factors with an "Everywhere" denominator, then divide Line 4 as follows:

Sales/Receipts and Payroll- divide by 3
Sales/Receipts and Property- divide by 3
Payroll and Property- divide by 2
Sales/Receipts only- divide by 2
Property OR Payroll only- divide by 1
Enter the results of your calculation on Line 5. This is the modified apportionment percentage to be applied to taxable foreign dividends.

## STEP 6

Enter the amount of taxable foreign dividends on Line 6. This amount must agree with NH-1120-WE, page 1, Line 1(d) and the total of Schedule III, column B.

## STEP 7

Multiply Line 6 by the modified apportionment percentage on Line 5. This is the New Hampshire Foreign Dividends Taxable Business Profits. Enter this amount on Line 7 and also on NH-1120-WE, page 1, Line 6.
