FOR IMMEDIATE RELEASE

The New Hampshire Department of Revenue Administration Partners with the Internal Revenue Service to Accept Interest & Dividends Tax Payments Electronically

Concord – February 1, 2016 – The State of New Hampshire Department of Revenue Administration (NHDRA), in partnership with the Internal Revenue Service (IRS), has begun accepting New Hampshire Interest & Dividends (I&D) Tax payments electronically through the IRS’s Modernized e-File System (MeF System). The MeF System allows a “one stop shop” for tax filing, where taxpayers can file certain federal and state returns either through their tax preparer or by using tax preparation software in one electronic transmission that is sent to both the IRS and the participating state. The NHDRA began accepted I&D Tax forms (Form DP-10 I&D Tax Return and Form DP-2210/2220) electronically through the MeF System last year, but upon this initial implementation taxpayers were still required to make payment of taxes owed directly to the NHDRA. This most recent step will allow I&D taxpayers to complete their entire transaction, both filing their return and paying the tax owed, through the MeF System.

The NHDRA is pleased to begin accepting I&D tax payment through the MeF System and will be expanding its use of the MeF System in future years to accept Business Profits Tax and Business Enterprise Tax returns and return payments.

To participate in the MeF System, software vendors must be approved by the NHDRA. The vendors that have been approved or are pending approval to file the I&D forms with the NHDRA through the MeF System are CCH, CS Professional Suite, Jackson Hewitt, Intuit, TaxACT, FileYourTaxes.com, Liberty Tax Service, On-Line Taxes, Inc., CrossLink, Drake Software and Thomson Reuters. Further information on vendor approval can be found on the NHDRA’s website at www.revenue.nh.gov on the Forms page under Vendors.
