EXCLUSION CODES

It is the intent of the Department of Revenue Administration to use only arm's length transactions that sold for market value in the conduct of the ratio study. See the definitions for "arm's length" and "market value" on the back of the 2018 Equalization Instructions.

Assessing officials are required to provide comments regarding various aspects of a sale. The DRA is providing assessing officials with exclusion codes to explain the conditions of the excluded sales. Put exclusion codes in the space provided titled "Exclusion Code." If there is more than one reason for excluding a sale, include additional exclusion codes in the same area. **DO NOT use exclusion (or any other) codes to describe a change in assessed values from the prior EQ year.** Assessing officials may choose to make comments in the town notes section to further explain the details of a sale.

It is the DRA's intention to utilize as many sales as possible. Unfortunately, this is not always possible. The sales and corresponding codes in the exclusion code table are typically not considered to be arm's length transactions. Therefore, they are not used in the ratio study. The sale may be used, however, if information is provided to the DRA regarding the terms and marketing of a sale to show that the sale meets the criteria of an arm's length transaction and it can be established that the sales price equated to market value as defined on the back of this page.

The table lists the most common reasons for removing the majority of sales not included in the ratio study, but does not include every reason for excluding a sale. If a sale is a non-arm's length transaction and no code is provided, ***do not try to find the code that is the closest match for removing the sale!*** Please use exclusion code 99, unclassified exclusion, and provide explicit and complete remarks in the town notes section for the sale. For any code with a "yes" in the "explanation required" column, further explanation is required in addition to the exclusion code.
